

A man who made a difference in this world. Let's continue the journey.

Lukas' life journey was a remarkable one. Entrepreneurial, and always adventurous, he was passionate about the resource industry and its power to transform lives. From the high Andes of Argentina to the jungles of Ecuador, he pursued opportunities that led to some of the largest and most successful resource developments in the world.

Pushing the boundaries of brain cancer research.

His last major initiative was the establishment of the Lundin Family Brain Tumour Research Centre. Let's build upon his legacy.

FOUNDED LUNDIN FAMILY BRAIN TUMOUR RESEARCH CENTRE AT CHUV

LIVED IN GENEVA

Syria
Tanganyika Oil
Tishrine Oil Field
Acquired by Sinopec

LIVED IN DUBAI

Malaysia/Vietnam
Lundin Oil
Bunga Kekwa/Raya Gas Field
Acquired by Talisman

Why we are raising money for brain cancer research

In honour of Lukas Lundin who died from Glioblastoma in July, 2022.

After his diagnosis it became clear that for such an aggressive cancer there was little awareness and an extreme lack of research and treatment funding.

To change that, Lukas founded the Lundin Family Brain Tumour Research Centre at the Centre Hospitalier Universitaire Vaudois.

Please join us on this journey.

Canada
International Petroleum
Onion Lake
Blackrod
Suffield
Ferguson
